Voices of the International Corpus of English (VOICE) CANADA. Voice Canada is a compilation of 70 sound recordings of speakers of Canadian English, based on recordings made as part of the data collection required for creating the Canadian component of the International Corpus of English (ICE-CANADA). These studies were partially organized by The BCCP, as well as other local groups.
Corpus linguistics is the study of language as expressed in corpora of "real world" text. Corpus linguistics proposes that reliable language analysis is more feasible with corpora collected in the field in its natural context, and with minimal experimental-interference. The field of corpus linguistics features divergent views about the value of corpus annotation. These views range from John McHardy Sinclair, who advocates minimal annotation so texts speak for themselves, to the Survey of English
